** NEW! MMMonVHF chat - TEST ***

We just implemented a chat section into MMMonVHF, which is still
in a test stage. In order to follow-up it's behaviour in a real
world environment I would kindly ask for your support. The chat
is only available for users which are logged in into MMMonVHF.
So, in order to test the chat, please login and follow the Chat
-Test- link in the Contact dropdown menu! Thank you!

** AURORA WATCH 2010-09-21 **

A solar wind stream is buffeting Earth's magnetic field, and this
could cause geomagnetic activity at high latitudes. Sky watchers
in Alaska, Canada and Scandinavia should be alert for auroras!
Sept. 21st began with a eruption on the sun's northeastern limb
that ... couldn't ... quite ... lift off. The eruption, abeit
beautiful, was not particularly effective. It produced neither a
bright flash of electromagnetic radiation (a "solar flare") nor
a substantial CME. More potent events may be just around the
corner. A magnetic active region crackling with B- and C-class
solar flares is about to emerge over the northeastern limb.

** A United Nations declared World Space Week **

UN-declared World Space Week, October 4-10, needs your
participation! Any event, small or large, helps attract global
media and public attention. Thus we ask everyone to plan a space
related event for October 4-10 and add it to the calendar at
http://www.worldspaceweek.org/calendar Your participation is
important and appreciated! SOUREC: dennis.a.stone"at"nasa.gov

Might be an opportunity to demonstrate visibly, to a world wide
stage, EME. Also there is a Word Conference beginnig in two days,
at Charles University, in Prague CZ. It is the SGAC organization's
conference, see:
http://www.spacegeneration.org/index.php/activities/space-generation-congress
I am offering to work with the SGAC and other groups (CAMRAS, AEXA,
Mexico, NASA) towards a coordinated world wide EME operation, for
the Yuris night activities, which, being world wide, are actually
24/7 depending on your world location. in the days bracketing April
11. See http://www.yurisnight.net ...

** EME on 6m from home at UN8GC **

If you are interested in running a SKED with me, please let me
know by email or MSN. Equipment: Flex Radio 3000 SDR transceiver,
M2 6M-100 SS PA with 1 kW output 10 element Yagi by YU7EF on 16 m
boom (no elevation control at this point yet) I have a high rise
building blocking my paths from 255 to 315 degrees of azimuth so
no QSO on my Moonset is possible except in times when Moon is at
south declination. 73, Mike UN8GC MSN: mchrikov"at"olmitec.com
SOURCE: tnx to Lance, W7GJ in QSP to MMMonVHF

** Aro Island (EU-172) qrv HF, 6m and 2m **
```

Look for OZ/DJ5NN, OZ/DL2LTM and OZ/DL2TG to be active from
Aro Island (EU-172) from 25 September to 4 October. They will
operate CW, SSB, FM and PSK on 80-10, 6 and 2 metres. QSL via
home calls, direct or bureau. SOURCE: [TNX rsgbiota.org]

** DEADLINE for your NEWS input to MMMonVHF**

to the next MMMonVHF Newsletter will be next wednesday 2359 UTC...

****
      The VHF-DX-Portal MMMonVHF - Newsletter Credits & Info
****

Our Newsletter is compiled from the input of the USER of the
VHF-DX-Portal MMMonVHF as well by a lot of free usable
HF-V-U-SHF-Info-Sources (named as SOURCE at the NEWS) and chats
like ON4KST-, RU-VHF-DX-Net, EA-V-U-SHF-Chat, N0UK-Chat and others.

    ** Many thanks to all USER who send us info and news **

Wherever we found the info we always indicate the source of the
info. If you get knowledge of an expedition, which is NOT listed
at our VHF-DX-Portal MMMonVHF or if you have additional info for
an expedition, PLEASE be so kind and send us this info at:

** www.mmmonvhf.de/newsuser.php or www.mmmonvhf.de/kontact.php **

The MMMonVHF-Team is always trying to spread any expedition info
as much up-to-date and reliable as possible and as long as the info
does not violate with our MMMonVHF-Policy.

Have a lot of fun and enjoy the VHF-DX-Portal MMMonVHF!
